TODAY'S GAME

Well, it's on today!

The long awaited clash between top sides, St. Kilda and Reservoir.

Both teams have tasted defeat only once this season, Reservoir were defeated by 7 points at North Melbourne, and St. Kilda failed by 4 points against Sunshine.

This match could well decide the coveted double chance in the finals and will certainly give the victorious team a psychological advantage when these sides clash later in the season.

St. Kilda are a big side. Their rucks are their strength and here, I expect the Saints to have an advantage as "Whiskers" Whittenbury is on the side lines, and the brunt of the heavy work will be shared by Alan Chandler and Roy Weir. These two are playing well, and with the support of Ian Woods, who is "in and out of the packs like a soldiers lunch", ably assisted by Tony Merrett, the Reservoir roving division looks really strong.

The return of Gordon Richmond to the half forward flank and the possible reinclusion of "Barnacle" Bahen, and "Smoothie" Aldwell will strengthen Reservoir.

Reservoir's backline has more solidity, with "Champ" Chandler plucking quite a few skyscraper marks out of the air at full back as we are so used to seeing him do in the past.

Altogether, I expect this to be a tussle well worth travelling miles to see. Reservoir, with all-round steadiness and excellent co-operation should overcome the Saints big men and off-set the home ground advantage, to notch another four points for the Red and Whites, in what could see the closest match so far this season.

TCHAI.

SOCIAL NOTES

The Players' Tea held last Saturday night after the game was a great success, and about 70 members, wives and girl friends enjoyed the evening. We were privileged to watch the new film "Football Fever" with the compliments of "Caltex" and we thank them. Also, another excellent film was "Guardians of the Surf", a life-saving picture. The ladies of the club supplied an enjoyable buffet tea and music and dancing concluded the night in a very congenial tone.

The Cabaret Ball is getting closer and only 8 tickets are left at the time of writing, so if you have not purchased yours yet, we would advise that you do so very early next week. The table plans may be viewed in the showcase. This will be a good night with a band, vocalists, and novelties. Our SPECIAL EFFORT will be drawn on this night, so chaps, if you have not sold your tickets yet, sell them NOW, and return your butts to John Hatton. Come on fellows, now is the time for the effort and in doing so, you will be aiding the Club.

The Tivoli night details are well in hand and the people to see about attending are Mr. and Mrs. Bullivant.

Tickets for "In Melbourne Tonight" are gone! Yes, they went very quickly, and lucky receivers should have a good night.

SUSPENSION

Alan Whittenbury, burly Reservoir ruckman was suspended for two playing matches following a "round or two for a pound or two" with his opponent at South Melbourne a fortnight ago. This means he will miss the big game today against St. Kilda. Alan was very unfortunate to get reported when there were so many incidents in a wild game.

Don't miss the return game with South Comb. at home next week, it should be a beauty.

RESERVOIR CRUSH PRAHRAN

With better understanding and teamwork, Reservoir completely outplayed a disappointing Prahran at Crispe Park last Saturday and ran out winners by 88 points.

With first use of the wind, Prahran opened confidently and drew first blood with a major. From the bounce, they attacked again and had the Reservoir backline working overtime. A point to open Reservoir's account and then Prahran came down the centre to goal again. Mel Gellie, playing his first senior game passed to Ward who goaled. This was followed by a string of behinds until Ward "sunk" his second to give Reservoir a narrow lead.

With the breeze, Reservoir showed better teamwork, but could not kick goals, Gellie handballed to Ward for his 3rd. Prahran turned to negative football and bottled play on the non-scoring flank.

Half-time: Reservoir 6.15 Prahran 2-2

After the break, Prahran, instead of attacking with the wind, continued to play negative football. McCrimmon to Hosking to Ward for a goal was good play. Prahran attacked but Bob Chandler drove them out. Jim Skene was under notice and his pass to Gellie and then on to Hosking resulted in another goal. Belatedly, Prahran goaled on the bell.

The last term was all Reservoir, and goals to Weir and Alan Chandler put them further ahead. Prahran surged forward but Hawkless cleared and started a chain of passes via Sutton and Hosking to Ward, who scored the maximum. Hosking and then Weir goaled to bring up Reservoir's 14th goal.

Final Scores: Res. 14-25 d Prah. 3-3-21.

Goals: Ward 6, Weir 3, Chandler 3, Hosking 2.

WHO'S WHO AT RESERVOIR

ROY WEIR, born 19th May 1937. Ht. 6'1". Wt. 14st 4 lbs. Position - Ruckman. One of the best finds of recent years for a junior club was accomplished when Reservoir signed Roy Weir. This tall, well built follower from Shepparton could have walked into any side. As a ruckman, he would be one of the best in the comp. where his untiring robust game gives life to the whole side.

Two seasons ago he won

the club's best player and last season he was just "pipped" by champion centremen Don Sutton. Roy is a good mark and his kicks "get there". With four seasons under his belt for the "red and whites" Roy could truly be classed as a veteran. He is one of the four policemen to play with the side. Hobbies are centred around car repairs but rumours state that he is quite a good singer although nobody connected with the club has heard him "in action".

EDITOR'S COMMENTS ON P.D.J.F.A. "FOLD UP"

This week we are minus the "Junior's Page". The reason? Of course. This healthy bunch of lads are out of a game because the P.D.J.F.A. have "thrown in the towel" instead of "fighting on" to keep the glorious football flag flying high. Now fewer than one hundred players from five teams are affected by this disgraceful decision to abandon the "under 19" half way through the season. Still, what does this matter so long as the P.D.J.F.A. have ridded themselves of their worries. Perhaps their motto is "Kick with the wind". The willful destruction of one hundred young "football hearts" without offering apologies to anyone indicates that their administrators are devoid of conscience.

Association crowds are diminishing each week, rugby has gained the Prahran ground, the vast numbers of migrants coming to Victoria are playing soccer. These are just random observations made by the Aussie Rule philosopher.

To discourage boys around the "under 19" age further adds to the swing towards doing "something else" on Saturday afternoon. Therefore the "Junior" football bodies have a man size job to perform in that they encourage and keep the "junior" footballer keen and happy. Surely our New Australian neighbour won't be interested in getting tangled with Aussie Rules when he reads in the "dailies" where one comp is at loggerheads with another comp. over clearance difficulties, or that one section of a league has folded up because of lack of foresight by it's promoters. The time has come for a modern Pied Piper to "come into the game" and lead the way toward football peace and prosperity.

As it stands at the moment, Sirs I say -
"IT'S NOT FOOTBALL"

ROUND AND ABOUT

with BROG.

"Hat's off to the ladies". Again this year they swing into action at the canteen with more enthusiasm than a bear has for his first feed after six months hibernation, which "bears" out with the club motto - Lion hearted in teamwork. Recently it was suggested that the club purchase a monkey and a barrel organ to help Mrs. BULLIVANT with her portable peanut vending, but popular opinion amongst the boys is such that even if Mrs. Bullivant had a pistol in her hand, she could not improve on her sales.

---oOo---

You can take it from me that there's no truth in the rumour that TONY MERRETT has been signed up as "chucker out" for our Cabaret Ball. It was only suggested that he be offered the job after he had "kicked so many behinds" against Northcote a couple of weeks back. However as Tony says he always has a "goal" in mind when he plays and it's not his fault if the flamin' football refuses to go the way he kicks it. We believe that on his "merit" Tony can really "straighten" things out to take full points.

---oOo---

Our committeeman, young HARRY LANE, from the "licker" was forced to abstain, But the day came to pass When he had half a glass And he reckons he'd do it again.

---oOo---

Ha, ha. Just heard the one about the bloke who tried to revive the Indian rope trick and got himself "tied up in knots".

---oOo---

JULIE was well rugged up last week because she didn't want to get "Echo 7". That's one better than "Echo 6". Today she thought that "out of bounds" was a worn out kangaroo.

Toodle-oo.
