AGRICULTURAL NOTES

It is a well known fact that a very common cause of failure in the use of manure is the fact that it is not properly prepared. The manure should be well rotted and should be mixed with a large quantity of water before it is applied to the soil.

The following are the names of the most successful agriculturists in the Colony:

- W. J. HARRISON**, 205 Collins Street.
- A. G. HAY**, 205 Collins Street.

"My analytical and practical experience of Pearl Soap now extends over a very lengthened period—nearly fifty years—during which time

"I have never come across another Toilet Soap which so closely realises my ideal of perfection;

"its purity is such that it may be used with perfect confidence upon the tenderest and most sensitive skin, even that of a new-born babe."
