THE GRASSHOPPER PEST.

A member of the State Board of Trade, in a paper read at the meeting of the Board, held at Melbourne on the 17th inst., has made a paper on the grasshopper pest, which has been read in some parts of the State.

The grasshopper pest is a very common one, and is known to be particularly destructive to the crops of the colonies. It is a very voracious insect, and is capable of eating up a large quantity of the crops in a very short space of time.

The pest is most abundant in the months of May and June, and is particularly destructive to the crops of the colonies. It is a very voracious insect, and is capable of eating up a large quantity of the crops in a very short space of time.

THE HONOURABLE THE POSTMASTER-GENERAL.

The Hon. the Postmaster-General, in a paper read at the meeting of the Board, held at Melbourne on the 17th inst., has made a paper on the grasshopper pest, which has been read in some parts of the State.
