AGRICULTURAL COLUMN

Hints for Rome and Farm. There is more in planning than in work. The farm is quite as near heaven as the city.

The orchard area helps you to enrich other parts of the farm. Intensive farming permits you to make land pay for itself.

When you start your animals you may cut down on the cost of the feed. Keep the best soil on the surface, or make it so.

You have a poor spot on your farm, make it the best. The cost of production varies with the farm.

Produce more than you are really capable of selling. A good quality of produce is a good quality of life.

A half-farm will fill it better than a full farm. The better animals are kept the less liable they are to disease.

Carry on those of business with which you have the best experience. A universal cash business will flourish with the best of care.

It is not the quantity of the produce that counts, but the quality. The best produce is the best produce.

There are many things that you can do to improve your farm. The best of them is to keep it clean.

There are many things that you can do to improve your farm. The best of them is to keep it clean.

White's Grape Picker

In picking grapes in vineyards, where they are so numerous, it is customary to employ one man to pick and another to carry the fruit to the house. The White's Grape Picker is a most useful and economical device.

The White's Grape Picker is a most useful and economical device. It is made of the best materials and is of a simple and durable construction.
