OLD AGE PENSIONS IN DENMARK.

HOW THE SCHEME WORKS.

While this large and opulent country of ours is talking about Old Age Pensions, poor little Denmark, it seems, has actually got the idea, and is actually carrying it out.

On the 1st of January, 1894, 4,372, and on January 1st, 1895, 4,638 (1,882 men and 2,756 women), with 1,110 persons dependent on them.

The amount of relief under this law in Copenhagen, exclusive of the cost of administration, was in 1892, £25,140 (8,888 from the State, £16,252 from the City); in 1893, £28,709, and in 1894, £34,218.

Since this law has been in operation there has been a considerable and a considerable decrease in the amount spent on paper relief, in 1892, a decrease of £4,288, in 1893, of £3,812, in 1894, £4,415, as compared with 1891, and making no allowance for the great increase in the amount of relief during these years.—Review of Reviews.

EDUCATION BY HYPNOTISM.

Dr. R. Ogilvie Mason writes in the "North American Review" for October, 1896, "The Educational Use of Hypnotism." He quotes a striking instance of education—brought about by hypnotic suggestion.

In the summer of 1893 there was at Salpêtrière a young woman of a deplorable type—a criminal lunatic. Her only consolation was that she was being educated by hypnotic suggestion.

PINK PILLS SAVED MY LIFE.

THE EMPHATIC STATEMENT OF A YOUNG LADY WHO RESTORES THE HOME OF HER FATHER BY THE WELL-KNOWN EVANGELIST.

The Rev. J. K. Hunter, whose marvellous work in connection with the young ladies who restorer the home of her father by the well-known evangelist.

"I believe Dr. Williams' Pink Pills saved my life, and I am quite willing that everyone should know it," said Miss Harris when asked if she would make public her story.

"When I was twelve or thirteen years of age I was taken sick. The doctors said my blood was all spoiled to water. For five years I suffered terribly, and I was told I could barely keep alive. If I tried to stand a short time, or if I got the least bit of cold, I would fall over in a faint."

"I was so far gone that I was told I could never be cured. I was told I could never be cured. I was told I could never be cured."

"I was so far gone that I was told I could never be cured. I was told I could never be cured. I was told I could never be cured."

THE BANANA AS TYPHOID FOOD.

According to the belief of Mr. William C. Leary, M.D., of St. Louis, the banana is the very best food obtainable for typhoid fever patients.

In this disease, he explains, the membrane of the small intestine becomes intensely inflamed and swollen. Eventually it begins sloughing away in spots, leaving well defined ulcers.

At the places the intestinal wall becomes dangerously thin. A solid food, if taken into the stomach, is likely to produce perforation of the intestine, and dire results will follow.

There is no doubt that the banana is the very best food obtainable for typhoid fever patients. It is soft, and easy to digest, and it contains all the elements of nutrition.

It is soft, and easy to digest, and it contains all the elements of nutrition. It is soft, and easy to digest, and it contains all the elements of nutrition.

It is soft, and easy to digest, and it contains all the elements of nutrition. It is soft, and easy to digest, and it contains all the elements of nutrition.
