CASH TRADING.

Cash Trading is one of the fundamental principles of a successful
business AND ANY MEANS which tends to bring about this result is
gladly welcomed by traders generally.

The most successful method yet adopted is the system as introduced by
THE CO-OPERATIVE COUPON COY., LTD., who act as agents in
this respect to thousands of Victorian traders.

It benefits the trader inasmuch as it INDUCES CASH TRADING,
DECREASES BAD DEBTS and SAVES COST OF BOOKING and
COLLECTING, and it is a boon to householders and the public as IT GIVES
THEM A DISCOUNT ON RETAIL CASH PURCHASES whether large or
small, which could not be obtained before.

THE PAYMENT OF CASH, and the SAVING OF CASH DIS-
COUNTS (which under the Coupon system is necessary) is PRODUCTIVE
TO THRIFTY HABITS by which the whole community benefit.

ferred to the Surveyor for attention.—Adopted.

Letter S. Taylor, re dangerous quarry holes off Westgarth street.—That an order be made on George E. Johnston, of Westgarth street, Etray, and on Edward H. Jenkins, of McKean street, North Fitzroy, respecting them to securely fence round the McKean quarry holes, their respective hand abutting on Westgarth street.—Adopted.

C. Cunningham street footpath.—That the footpath on the north side of Cunningham street be tarped from the portion now completed west to McLachlan street, the owners of the property abutting thereon to contribute one half the cost thereof.

Cr. Marks moved the adoption of the clause. The mayor asked that the clause be withdrawn.

Cr. Marks explained that if the council's men employed it would mean an extra expenditure of 24. Cr. Yeomans—Who pays the council's men?

The mayor said it was only £1 he had done Dennis street; and he would accept the council's offer to put no more works of this kind on the notice paper as would only give him the same amount of relief from the notice paper.

things, for deepening of the channel on the south side of Beaver's road, and the fencing off of same, the estimated cost being £350. A complete scheme would cost from £10,000 to £15,000. In reply to Cr. Yeomans the engineer said it would mean the deepening of the Beaver's road channel at the west end by about a foot.

Cr. Thompson expressed strong objections to the fence being run down the street. Cr. Edwards said it was very hard on the residents of Beaver's road if they should be sacrificed by their thoroughfare being turned into a drain for the whole northern portion of the town. He did not know a single resident there, but he would be sorry to see the already deep drain deepened and a fence put down the street. Surely there was some alternative by which this might be avoided.

Cr. Peal predicted that when they saw the effects of these proposals the residents of Beaver's road would be up in arms against them. The drainage had to be got rid of but not at the cost of particular misgivers.

Cr. Hastings thought they were making "much ado about nothing." Deepening the drain the few inches proposed would make no difference to anyone. Why the drainage was taken down Beaver's road was simply because it was the natural waterway, being the lowest part.
