CHAPTER I.

Atone.

"Earth to earth, ashes to ashes, dust to dust."
The light gavel rattled over the coffin. The two women standing by the open grave raised their heads and gazed at the grey sky that seemed to hold a compassion for her grief...

THE LEADER

"In a minute," there was a rattle in the chain and the shooting of a bolt of light. The door swung open. In the opening stood a man in a blue coat with a sash. His eyes were fixed on the girl...

WOMAN'S WORLD

WOMANLINESS. The great secret of success is to take a pleasure in doing what you are doing. We all have our woman who is so proud and so far attracted by the progressive...

SOME DON'TS IN DRESS

Don't wear a hat or a fresh hat with a cotton dress or skirt. Don't achieve the grotesque white attempting the original. Don't dress your head at the expense of your hands and feet.

WHAT GIRLS CAN DO

A bit of girl, with her hair down, her back and her skirts still short, can work wonders that would baffle a magician.

IT TAKES TWO TO MAKE A QUARREL

Young married little family may wish to avoid quarrelling with their partner. It takes two to make a quarrel. An old proverb says that two wrongs make a right.

CORRECTED TIME

There is nothing like having one's time corrected. It is a very common sight to see a person who has been talking for an hour...

FALSE PRIDE

One of the ugliest forms of pride is that which appears humbly. Girls who are slaves to this are always being lifted themselves, always disclaiming credit in a grandiose way...

THE ART OF FORGETTING

'Forgetting' is not a science, it is an art. It is the art of letting go of things that are no longer useful or necessary. It is the art of forgetting the past and looking to the future.

VINEGAR DOES IT

For cleaning smudges and dirt in general from the wall and window, vinegar is the best. It is a natural cleanser and does not harm the surface.

The Last Legacy

Twenty-year-old Arthur had been told by his father that he had a large inheritance. He had been told that he had a large inheritance. He had been told that he had a large inheritance.

A Figure Curiosity

The sum of 112 1/2 is remarkable in one respect—it may be reduced to a whole number by removing the decimal part. The sum of 112 1/2 is remarkable.

2800 would be money well spent. Of this saving the council might be credited with 11 and 11... (The rest of the text is a detailed account of a council meeting and a local election, mentioning candidates like Mr. J. J. Stacey and Mr. A. M. Long.)

THE CORONATION CROWDS.

No. 2—Making History. By WILL W. ROCK.
History was never my forte. At school it was the dullest of a series of all subjects. I welcomed it as one of the roughest. It was the last day of the coronation on Thursday last, when the opportunity was given me of witnessing the making of a chapter in history. As the procession drew near the castle, I watched the compilation of some historical pages for future generations to read with wonder and interest. I passed myself into a seat in a box opposite a building immediately in front of the castle. I found a man of portly build and a woman of slight build, both of whom I had never seen before. They were talking to a third man who was standing by the carriage. I took my seat and found myself in a position to see the coronation.
