THE GREAT STRUGGLE.

STIRRING ADDRESS BY REV. C. W. WOOD.

A Masonic service was held in the Lyceum hall recently for the purpose of commemorating the centenary of the death of the late King of Belgium. The service throughout was most impressive and the following eloquent review of the war was given by Holy Trinity's esteemed minister—
Rev. C. W. Wood, P.S.G.W., said the unique set of circumstances which brought together people from all parts of the world to address them on a subject, the magnitude and importance of which could not be overestimated. We saw the world at arms. The number of soldiers employed on either side, the colossal armies and the power of the modern organisation of the operations, had never been even remotely approached in the history of the world before. Its origin predated, as we are all well aware, the last century, and we were shocked by its contempt for sacred obligations and treaties. It was a new and unimagined power, the power of the machine, which had been developed and which had been used for the purpose of the destruction of the human race. It was a power which had been developed and which had been used for the purpose of the destruction of the human race. It was a power which had been developed and which had been used for the purpose of the destruction of the human race.
