Have You a Gas Cooker?
Summer Cooking with an antiquated fuel range is an utterly miserable process, involving constant attention to the fire, and a general extravagance in time, labor, and temper.
A Modern Gas Cooking Stove enables the Cook to work coolly and placidly, preparing several dishes at the same time, and giving to each exactly the amount of heat required. It ensures success and punctuality without fatigue, without discomfort, and without the labor of cleaning out grates and carrying coals.

PAINTING!
You can't afford to have anything but the best paint used upon your house, neither can you afford to have anyone but the best of workmen apply it. Cheap paint means poor protection and frequent repainting, repairs and money wasted. Poor workmen means the same thing. We use **Genuine White Lead** and **Linseed Oil** because it makes the **Best Paint** which can be procured. Our workmanship is of a quality which can only come from years of practical painting experience. These two things combined will give you the best estimate of a job. Will you not let us call and give you an estimate?
